

*Lord Jesus, may we be open to the guidance and enlightenment of the Holy Spirit so that our hearts and minds grow with a strong and deep faith in the Father's goodness and love. Obtain for us a firm, persevering and active faith that directs our words and deeds.*

*Bring us hope and comfort as we face our many needs and health concerns and help us to view our problems positively as opportunities to be healed in body, mind, and spirit. Obtain for us the grace to seek an intimate relationship with Jesus in all that we think, say, or do as we walk with Him in his spiritual pathways of virtue and goodness.*

*Guide us in recognizing when our neighbors are in need and may we always refrain from saying or doing anything that hurts them. May we be graced with a true spirit of charity to be generous and compassionate to others with our time and resources.*
